Subject: State Public Assistance Request SD2005

On May 31, 2020 Governor Doug Ducey issued a Declaration of State of Emergency for “Rioting – Imposition of Curfew” for the entire State of Arizona (See Attached). Within this Declaration was a provision that dollars from the General Fund be made available to the Director of the Arizona Division of Emergency Management to be expended in accordance with ARS § 35-192.A.A.C. This statute Authorizes the State to reimburse jurisdictions involved in the response for expenses incurred as a “Direct result of the declared disaster.” Additional funding may be allocated if approved by the State’s Emergency Response Commission.

The Arizona Department of Emergency and Military Affairs (DEMA) is responsible for administering this reimbursement process, referred to as Public Assistance Reimbursement Program. The program is defined by DEMA, “To help jurisdictions recoup disaster-related costs that are above and beyond their capability to recover without State assistance.” In this instance reimbursement was approved to assist Counties and Incorporated cities or towns with:

- Debris Removal
- Emergency Response/Protective Measures
- Damages to Public Infrastructure (i.e. Publicly owed buildings, works, systems and equipment)

The State Public Assistance Reimbursement Program can reimburse cities and towns for approved expenses up to 75%, based on available state funding, requiring a 25% cost share from the applying agency.

As the Designated Applicant Agent for the City of Phoenix, I submitted the Request for Public Assistance to DEMA to ensure we could be considered for reimbursement for damages

occurring during the identified period of the declaration, which was May 28 through June 11, 2020. Office of Homeland Security and Emergency Management staff worked with each of the affected departments to gather the required information and work with DEMA to complete the application.
